### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest the limitation of generating statistics associated with a plurality of voice application deployments after modification of the voice application. *Kausik et al.* teaches accumulating data in a history file of URL requests and updating an anticipation class for each URL with the URLs most frequently accessed. (¶[0033] - ¶[0034]) However, *Kausik et al.* does not disclose or reasonably suggest modifying a voice application and generating statistics after the modification. Applicant's Specification, Page 63, Line 11 to Page 65, Line 7, corresponding to ¶[0245] - ¶[0248] of U.S. Patent Application Publication No. 2004/0010412, discloses that an administrator may change a voice application, and that statistical analysis can be used at a voice application server to determine over several voice application deployments which files make sense to be cached. The Specification, Page 6, Line 27 to Page 7, Line 3, states that an objective is to improve data carrying efficiency and response time at a voice portal. The prior art of record does not disclose or reasonably suggest a combination of a static content optimizer for tagging files containing static content and a dynamic content optimizer for tagging files with dynamic content for a voice application, wherein the dynamic content optimizer analyzes previous execution of the voice application, and wherein a report manager generates statistics after modification of the voice application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
